Exterior AND Interior Architectural Design -- modern and minimalist

1

Épinglé à partir de [journal-du-design.fr](http://journal-du-design.fr)

- Steel Cuts, 30 x 60 (steel framing system)
- Green roof
- Rainwater is collected in underground storage
- No lifts
- High insulation wall, 200mm
- Airborne acoustic insulation (acoustic facade system)
- Innovative flush facades offer unobstructed light
- Containers or flexible steel frame system, can be transformed in regular 3D containers
- Top class interior finishes
- Durable, healthy materials
- Heat pumps
- Solar panels
- Possible to connect to green building
- Energy management system, active tracking of energy consumption/production
- Pricing that absorbs down-sides
- Large openings in the sunshades reduce

large, spacious, and undercover outdoor areas, another shipping container home this provides less natural light but would make a cheap, easily constructed farm house. With plenty of storage for equipment and ample living spaces. The colours for this house blend with the grass surrounding it and the trees around it.
